

## Built for strength, ready for adventure

- Be more adventurous with Scratch and Shock protection
- Keep your mobile safe with the Dust and Water protection
- Never lose your way thanks to direction sensing
- Stay connected with SNS and IM services
- Easy-to-use keypad is perfect for texting on the go

The Solid Immerse lets you live life to the fullest and will release your more adventurous side. With dust-proof, water-proof (fully submersible), and even scratch and shock proof technology, life's little tumbles won't prevent you from keeping connected. The Solid Immerse packs in loads of other features including SNS and IM services, an easy-to-use keyboard, and new direction sensing technology that means you'll never lose your way. Take a walk on the wilder side of life with the Samsung Solid Immerse.

### Scratch & Shock Protector (Anti-scratch Screen)

Made for a rugged lifestyle, this mobile is designed to stand up to the rough and tumble of an active life. The anti-scratch screen (4H hardness) is extra hard to withstand scratches from falling out of the pocket while rock climbing or simply rubbing against keys in a backpack.

### Dust & Water Protector (IP67 certified & US Military Standard)

Samsung's Solid Immerse comes protected from the elements so you don't need to worry about dirt or water getting on the mobile and impairing it. Whether whitewater rafting down a river or dirt bike riding in the mud, you never need to worry about messy splashes or intrusive dust. In fact, the mobile operates up to 1 meter underwater and can stay submersed for up to 30 minutes.

### Large & Convex Keypad (easy to press w/ accuracy)

The buttons are easy to press with accuracy, even when wearing bulky gloves

### Direction Sensing : Digital Compass & GPS Support (Optional)

Never lose your way thanks to the built-in Digital Compass and GPS Support (Optional).

## Mobile SNS & IM services

This mobile keeps you connected even in the wild outdoors, whether chatting with friends on Instant Messenger or Keeping in touch on social networking sites

### Non-Slip grip of soft-feel CMF

Non-slip material gives you a firm and secure in the palm even when hands are slippery

### Limited Video Call

Lets you hold video conversations without broadcasting your image (only view the caller's video feed)

### Noise Cancellation & Loud Speaker

Enables you to hear it all from conversations to music, whether next to a constructions site or roaring waterfall
